

Pete Craigie Z

ENG / ADD PROD / MIXER

*It's been a good start to the year for Pete. With mixing **Sugababes** tracks for **Darcus Beese**, spending 6 weeks in Sydney working with **Stuart Crichton** on **Damien Leith's** Album for Sony, and currently co-producing and mixing a forthcoming **Girls Cant Catch** single 'Alone' for Jordan Jay/Geffen, things are looking good in 2009.*

*Pete's biography reflects the diversity of his work, and with **8 number 1's**, **over 30 records in the top twenty**, and many more besides, he's a good bet if you want your record to work well on radio. His mixing and production abilities are wide ranging, but he is particularly skilled with vocals, which he considers to be a key element of a good mix.*

*Since the days of **Take That's** first massive '**Everything Changes**' album, through to today, Pete mixing has continued to get the best out of a production.*

*From his work with **R&B producer Steve Jervier** (**R Kelly's** UK launch, **Take That**, **Stay by Eternal**, etc, etc), he gained kudos on the urban scene then teamed up with Jamaican legends **SLY & ROBBIE**, mixing all their UK productions and remixes. Working with **Hugh Goldsmith** on the majority on **Innocent's** records also proved very successful chart wise. Pete does work on less commercial music, collaborating with **Rob Dougan** on the critically acclaimed **Clubbed to Death** and **Furious Angels** etc. Pete reworked these **mixes in 5.1** for inclusion in **The Matrix film trilogy**.*

*Sharing the same management has enabled **Stuart Crichton** to rely on Pete exclusively for mixing, and he also teams up with **Jony Rockstar** when the project is right.*
